

# Triphala

## Super Concentrated Digestive Aid

According to the American Cancer Society, colon and rectal cancers are the 3rd most common cause of cancer in females and the 4th most common in males. Additionally, an increasingly western diet has dramatically increased the incidence of this disease over the last 20 years as much as 92% in certain countries around the globe.

Our research into a solution for this alarming trend resulted in our discovery of an ancient Ayurveda formula known as Triphala. Triphala is a powerful tonic that is meant to aid digestion and support colon health via a combination of three powerful Indian herbs. Recent medical research conducted by several leading academic institutions in India such as the Bhabha Atomic Research Centre and Jawaharlal Nehru University has revealed that Triphala has a significant medicinal value as a potential detoxifying and anti-cancer agent. Additional studies in a variety of clinical settings have indicated Triphala as a powerful anti-cancer, stress, congestion, obesity, and headache agent.

Our **Triphala** is made of a perfect ratio of hand selected herbs that have been extracted into a convenient fluid extract. It's easy to take our Triphala throughout the day, in water or directly on the tongue. Use this powerful tonic to sooth your entire digestion process all while protecting and enlivening your entire body.

This celebrated Ayurveda tonic has a long history. It cleanses and balances the colon while improving digestion and intestinal probiotic flora. It removes stagnation, helping with conditions of constipation, while it also cleanses the blood and liver. Strong in vitamin C and flavonoids, it acts as an antioxidant; is also rich in minerals. It also helps build up immunity. It is easily assimilated and good for all body types. The three fruits all contain the benefits of astringent tannins. Our Triphala is a fluid extract form of the traditional tonic recipe.

Cleans and balances the colon, improves digestive microflora, removes bowel stagnation, and is blood and liver cleansing. High in vitamin C, flavonoids, minerals. An Ayurvedic, 5-taste tonic, good for all body types, promoting metabolic function.

**Ingredients:** Bibitaki (*Terminalia belerica*), Amalaki (*Embllica officinalis*), Haritaki (*Terminalia chebula*)
