**Instructions:** Consume 1-2 full droppers 1-2 times per day or as recommended by a physician.

According to the Center for Disease Control and Prevention, approximately 2% of United States Adults have severe Kidney Disease, which stands as the #9 cause of death. A recent study by Harvard Medical has linked the consumption of diet soda to a dramatic increase in kidney disease and kidney scarring. Increased consumption of table salt has been linked to increased

water retention and general kidney dysfunction. Overall, modern life and the contaminants of the modern diet have made it more difficult to properly maintain optimum kidney function, thereby making it difficult to maintain overall health and functioning.

Every day, a person's kidneys process about 200 quarts of blood to sift out about 2 quarts of waste products and extra water. Without this important filtration system, excessive compounds and waste matter would build up in the blood and cause tissue damage. We created **Kidney Aid** to assist with healthy kidney functioning and assist the overall fluid composition in the blood and body tissues.

**Kidney Aid** is easy to consume in its liquid extract form and can be dropped in water to be ingested throughout the day. Designed to have a cumulative effect over time, this potent extract also mixes well in smoothies, soups, sports drinks and tea. Constructed out of several powerful adaptogenic herbs, it makes an excellent complement for our Liver Aid and Liver Restore formulas.

Pairs well with Liver Restore and Liver Aid.

**Kidney Aid** has been formulated to help support optimum kidney functioning. Its tonic benefits aid in fluid balance and kidney detoxification.

### ***Ingredients:***

**Boldo:** Traditionally from Chile, used for kidneys, liver, bladder and for urinary tract infections. Boldo is the major kidney support herb in Central and South America, comprising many important compounds.

**Burdock root:** A blood purifier and diuretic in supporting fluid balance. Helps with skin conditions.

**Fo Ti Tieng:** It tonifies, warms, invigorates, and nourishes the blood. A tonic for kidneys, liver, and blood. In Chinese medicine, it helps promote longevity. We grow our own Fo Ti Tieng (He Shou Wu)

**Chanca Piedra:** An Amazon plant is known as "stone-breaker," for its traditional use in breaking up and expelling both kidney stones and gall stones. It supports liver, kidney, gall bladder and urinary tract.

**Uva ursi (Bearberry):** It is astringent, strengthening to irritated & inflamed tissue. Uva Ursi cleanses the blood & colon, tones the urinary tract, & helps against infections, including yeast overgrowth. This herb reduces accumulation of uric acid. It is a mild diuretic is important herb for both the kidneys & liver.

**Noni (leaf):** Supports kidney functioning, good for fluid balance. Helps the body cleanse & handle stress.

**Asparagus root:** It is cleansing to the kidneys, a diuretic. Asparagus root detoxifies and creates the ammonia smell in the urine. Asparagus is a great food steamed, in salads or lightly sautéed

with other vegetables. It is widely used in Ayurvedic foods and medicine.

**Horsetail:** Strengthens the bladder, helps flush kidney stones. It makes urine and contributes to the control of edema (fluid retention). Mineral rich, especially with silica, a co-factor of calcium and magnesium.

**Atlantic sea plants:** Full of minerals, they replenish them in the body along with vitamins, See our profile on Essence of Sea Plants as well as the articles on seaweeds. These come from eastern Canada.

**Manzanita berry & leaf:** A diuretic used in traditional Mexican formulas for cleaning the kidneys.

**Damiana:** Traditional use in Mexico, increases urine flow and helps with sexual potency and circulation.
