Suggested Use: Consume one pill per day after a meal with plenty of water or as directed by a physician. **Available in a sealed bag with 5 additional capsules included; please add a note to request.**

As men age, they begin to worry about the health of their prostate - and reasonably so! In the United States, approximately 1 in 5 men will be diagnosed with prostate cancer and 1 in 36 will die from this disease. Prostate cancer accounts for about 11% of cancer-related deaths in men (behind only lung cancer). The latest (2010) American Cancer Society estimates for prostate cancer in the United States say that in the following year, about 217, 730 new cases of prostate cancer will be diagnosed, and about 32,050 men will die of prostate cancer.

One of the most historically utilized and modern clinically tested solutions for prostate health and cancer protection is the legendary **Saw Palmetto** berry. **Saw Palmetto** oil has been clinically evidenced as an excellent resource for the optimum health and functioning of the prostate gland and for abating urinary tract infections and water retention. Ancient Native American Tribes used the **Saw Palmetto** Berry to combat cystitis, stomach ache, throat irritation, and asthma. The active ingredients in the oil are a medley of potent anti-inflammatory fatty acids, carotenoids, phospholipids and zinc. Our **Saw Palmetto** Oil is virgin pure-pressed from ripe wild-crafted whole berries and then mixed with the highest quality organic and virgin Tuscan Olive Oil.
