Our **Vita Power** formula is a truly monumental achievement in the nutritional field. This powerful mixture has been painstakingly (now re-) designed to energize, protect, and fortify nearly every organ, tissue, and function in the body. With over 23 high-quality synergistic ingredients and 18 extracts/compound intensive constituents this complete multivitamin style capsule is exactly what you need to make the most out of each day!

Each one of our capsules contains several highly absorbable, supreme quality, all-natural ingredients that have been carefully selected and integrated for this product. Our formula contains natural vitamins and minerals, CoQ10, adaptogenic herb extracts, vibrant antioxidants, protective compounds, potentiators, nutrient-dense tissue fortifiers, and organic brown rice as a flow agent. It is our most broad-spectrum and complete formula; it curbs free radical activity and provides powerful support for the brain, circulatory, cardiovascular, organ, nerve, adrenal, digestive, and immune systems as well as general metabolic support.

Many other multi-vitamins formulas are comprised of sub-standard and difficult to digest, factory generated, or otherwise unsuitable ingredients. These cheaply made mixtures may be easy on the formulator's pocketbook, but they have little use inside our bodies and ultimately may create more harm than good. Additionally, other natural vitamin producers will boast truly healthy ingredients (IE: CoQ10 or Grape Seed Extract), but then only provide a few milligrams per serving. Our specialty compounds contain between 40–160 mg of premium supplementation per serving. To top it all off, the majority of our herbs are presented in extract form which makes them 5 to 10 times more powerful than a standardized power.

Still not convinced? We decided to take this product to the next level by conducting a double-blind, placebo-controlled, peer-reviewed study using **Vita Power** in conjunction with our fantastic **Gluco-Low** to combat type II diabetes in 60 subjects. The result? **Vita Power** and **Gluco-Low** together generated “a significant improvement” in the categories of “thirst, frequent urination, hunger, weight loss, fatigue, blurred vision, diplopia (double vision), and frequent infections” in the test subjects!

Our **Vita Power** complex is the result of our truly no-compromise formulation ethic. No cheap ingredients, no sleight-of-hand combining, no fillers or binders, and a gold standard clinical study. If you want the highest quality, most comprehensive, and potent multivitamin formula available, **Vita Power** is your best and final choice!
